

Publications by Pavel Řehák (as of August 2019)

Monographs

1. O. Došlý, P. Řehák, Half-linear Differential Equations, Elsevier, North Holland, 2005, xiv+517 pp.

International Journal Papers

58. B. Ito, P. Řehák, N. Yamaoka, Applications of iterated logarithm functions on time scales to Riemann-Weber type equations, to appear in Proc. Amer. Math. Soc.
57. P. Řehák, Refined discrete regular variation and its applications, Math. Meth. Appl. Sci. 2019, 1-12.
56. P. Řehák, The Karamata integration theorem on time scales and its applications in dynamic and difference equations, Applied Mathematics and Computation 338 (2018), 487–506.
55. P. Řehák, N. Yamaoka, Oscillation constants for second-order nonlinear dynamic equations of Euler type on time scales, Journal of Difference Equations and Applications 23 (2017), 1884-1900.
54. P. Řehák, An asymptotic analysis of nonoscillatory solutions of q -difference equations via q -regular variation J. Math. Anal. Appl. 454 (2017), 829-882.
53. P. Řehák, On asymptotic relationships between two higher order dynamic equations on time scales, Applied Mathematics Letters 73 (2017), 84-90.
52. P. Řehák, Asymptotic formulae for solutions of half-linear differential equations, Applied Mathematics and Computation 292 (2017), 165-177.
51. P. Řehák, On some methods in half-linear asymptotic theory, Electron. J. Differential Equations, Vol. 2016 (2016), No. 267, pp. 1-27.

50. P. Řehák, V. Taddei, Solutions of half-linear differential equations in the classes Gamma and Pi, *Differential and Integral Equations* 20 (2016), 683-714.
49. P. Řehák, Asymptotic formulae for solutions of linear second-order difference equations, *J. Difference Equ. Appl.* 22 (2016), 107-139.
48. S. Matucci, P. Řehák, Extremal solutions to a system of n nonlinear differential equations and regularly varying functions, *Mathematische Nachrichten* 288 (2015), 1413-1430.
47. P. Řehák, Exponential estimates for solutions of half-linear differential equations, *Acta Mathematica Hungarica* 147 (2015), 158-171.
46. P. Řehák, A few remarks on Poincare-Perron solutions and regularly varying solutions, *Math. Slovaca* 66 (2016), 1297-1318.
45. P. Řehák, On decreasing solutions of second order nearly linear differential equations, *Boundary Value Problems* 2014, 2014:62.
44. P. Řehák, De Haan type increasing solutions of half-linear differential equations, *J. Math. Anal. Appl.* 412 (2014), 236-243.
43. S. Matucci, P. Řehák, Asymptotics of decreasing solutions of coupled p -Laplacian systems in the framework of regular variation, *Ann. Mat. Pura Appl.* 193 (2014), 837-858.
42. P. Řehák, Asymptotic behavior of increasing solutions to a system of n nonlinear differential equations, *Nonlinear Analysis Series A: Theory, Methods & Applications* 77 (2013), 45-58.
41. S. Matucci, P. Řehák, An asymptotic formula for decreasing solutions to coupled nonlinear differential systems *PanAmerican Mathematical Journal* Volume 22 (2012), 67-75.
40. P. Řehák, On certain asymptotic class of solutions to second order linear q -difference equations, *J. Phys. A: Math. Theor.* 45 (2012) 055202.
39. P. Řehák, J. Vítovec, q -Karamata functions and second order q -difference equations, *E. J. Qualitative Theory of Diff. Equ.* 24 (2011), 1-20.

38. P. Řehák, Second order linear q -difference equations, nonoscillation and asymptotics, *Czechoslovak Mathematical Journal* 61 (2011), 1107-1134.
37. P. Řehák, Asymptotic behavior of solutions to half-linear q -difference equations (2010), *Abstract and Applied Analysis*, vol. 2011, Article ID 986343, 12 pages, 2011.
36. S. Matucci, P. Řehák, Regularly varying solutions of second order difference equations with arbitrary sign coefficient, *Advances in Difference Equations*, vol. 2010, Article ID 673761, 16 pages, 2010.
35. S. Matucci, P. Řehák, Nonoscillation of Half-Linear Dynamic Equations, *Computers and Mathematics with Applications* 60 (2010), 1421-1429.
34. P. Řehák, Peculiarities in Power Type Comparison Results for Half-Linear Dynamic Equations, *Rocky Mountain Journal of Mathematics* 42 (2012), 1995-2013.
33. P. Řehák, New results on critical oscillation constants depending on a graininess, *Dynam. Systems Appl.* 19 (2010), 271-288.
32. P. Řehák, J. Vítovec, Regular Variation on Measure Chains, *Nonlinear Analysis* 72 (2010), 439-448.
31. P. Řehák, J. Vítovec, q -regular variation and q -difference equations, *J. Phys. A: Math. Theor.* 41 (2008) 495203, 1-10.
30. S. Matucci, P. Řehák, Rapidly varying decreasing solutions of half-linear difference equations. *Mathematical and Computer Modelling* 49 (2009), 1692-1699.
29. P. Řehák, A critical oscillation constant as a variable of time scales for half-linear dynamic equations, *Math. Slovaca* 60 (2010), 237-256.
28. P. Řehák, A Riccati technique for proving oscillation of a half-linear equation. *Electronic Journal of Differential Equations* 105 (2008) 1-8.
27. S. Matucci, P. Řehák, Second order linear difference equations and Karamata sequences, *International Journal of Difference Equations* 3 (2008), 277-288.

26. P. Řehák, Regular variation on time scales and dynamic equations, *AJMAA* Volume 5 (2008), 1-10.
25. P. Řehák, Comparison of nonlinearities in oscillation theory of half-linear differential equations, *Acta Math. Hungar.* 121 (2008), 93-105.
24. S. Matucci, P. Řehák, Regularly varying sequences and second order difference equations, *Journal of Difference Equations and Applications* 14 (2008), 17-30.
23. S. Matucci, P. Řehák, Nonoscillatory solutions of a second order nonlinear discrete system, *Appl. Math. Comp.* 190 (2007), 833-845.
22. P. Řehák, V. Taddei, Existence of positive decaying solutions for nonlinear singular second order equations, *Differential Equations and Dynamical Systems* 15 (2007), 89-108.
21. P. Řehák, How the constants in Hille-Nehari theorems depend on time scales, *Adv. Differ. Equ.*, 2006 (2006), 1-15.
20. M. Marini, S. Matucci, P. Řehák, Boundary value problems for functional difference equations on infinite intervals, *Adv. Differ. Equ.* 2006 (2006), 1-14.
19. P. Řehák, Function sequence technique for half-linear dynamic equations on time scales, *Panamer. Math. J.* 16 (2006), 31-56.
18. P. Řehák, Hardy inequality on time scales and its application to half-linear dynamic equations, *J. Inequal. Appl.* 5 (2005), 495-507.
17. P. Řehák, Opial and Lyapunov type inequalities for half-linear dynamic equations, *Dynam. Systems Appl.* 13 (2004), 445-458.
16. M. Marini, S. Matucci, P. Řehák, Oscillation of coupled nonlinear discrete systems, *J. Math. Anal. Appl.* 295 (2004) 459-472.
15. L. Malaguti, P. Řehák, V. Taddei, Bounded solutions and wavefronts for discrete dynamics, *Comp. Math. Appl.* 47 (2004), 1079-1094.
14. P. Řehák, On certain comparison theorems for half-linear dynamic equations on time scales, *Abstr. Appl. Anal.* 7 (2004), 551-565.

13. R. Hilscher, P. Řehák, Riccati inequality, disconjugacy and reciprocity principle for linear Hamiltonian dynamic systems, *Dynam. Systems Appl.* 12 (2003), 171-189.
12. O. Došlý, P. Řehák, Recessive solution of half-linear second order difference equations, *J. Differ. Equ. Appl.* 9 (2003), 49-61.
11. L. Erbe, A. Peterson, P. Řehák, Comparison theorems for linear dynamic equations on time scales, *J. Math. Anal. Appl.* 275 (2002), 418-438.
10. P. Řehák, Half-linear dynamic equations on time scales: IVP and oscillatory properties, *J. Nonlinear Functional Analysis and Appl.* 7 (2002), 361-404.
9. P. Řehák, Comparison theorems and strong oscillation in the half-linear discrete oscillation theory, *Rocky Mountain Journal of Math.* 33 (2003), 333-352.
8. M. Marini, S. Matucci, P. Řehák, On decay of coupled nonlinear differential systems, *Adv. Math. Sci. Appl.* 12 (2002), 521-533.
7. P. Řehák, Oscillation and nonoscillation criteria for second order linear difference equations, *Fasciculi Mathematici* 31 (2001), 71-89.
6. P. Řehák, Oscillation criteria for second order half-linear difference equations, *J. Difference Equ. Appl.* 7 (2001), 483-505.
5. P. Řehák, Generalized discrete Riccati equation and oscillation of half-linear difference equations, *Math. Comp. Modelling* 34 (2001), 257-269.
4. O. Došlý, P. Řehák, Nonoscillation criteria for second order half-linear difference equations, *Comput. Math. Appl.* 42 (2001), 453-464.
3. P. Řehák, Oscillatory properties of second order half-linear difference equations, *Czechoslovak Math. J.* 51 (2001), 303-321.
2. P. Řehák, Hartman-Wintner type lemma, oscillation and conjugacy criteria for half-linear difference equations, *J. Math. Anal. Appl.* 252 (2000), 813-827.
1. O. Došlý, P. Řehák, Conjugacy criteria for second order linear difference equations, *Arch. Math.* 34 (1998), 301-310.

Chapters in Monographs

1. R. P. Agarwal, M. Bohner, P. Řehák, Half-linear dynamic equations, In Nonlinear Analysis and Applications: To V. Lakshmikantham on his 80th Birthday, R. P. Agarwal, D. O'Regan editors, Dordrecht: Kluwer Academic Publishers, 2003, 1-56.

Papers in International Reviewed Proceedings

14. P. Řehák, A note on transformations of independent variable in second order dynamic equations, Proceedings of 24th ICDEA, Difference Equations and Discrete Dynamical Systems with Applications to appear in Springer Proc. Math. Stat.
13. P. Řehák, Half-linear differential equations, the Karamata theory, and the de Haan theory, Qualitative theory of ordinary differential equations in real domains, Kyoto, RIMS Kokyuroku, 1993 (2016), 1-25.
12. P. Řehák, A note on asymptotics and nonoscillation of linear q -difference equations, E. J. Qualitative Theory of Diff. Equ., Proc. 9'th Coll. Qualitative Theory of Diff. Equ., No. 12 (2011), 1-12.
11. P. Řehák, A role of the coefficient of the differential term in qualitative theory of half-linear equations, In Mathematica Bohemica Vol. 135, No. 2, Proceedings of Equadiff 12. Praha: Institute of Mathematics, Academy of Sciences of the Czech Republic, 2010, 151-162.
10. P. Řehák, A Willet type criterion with the best possible constant for linear dynamic equations. In Advanced Studies in Pure Mathematics. Advances in Discrete Dynamical Systems. Tokyo: Mathematical Society of Japan, 2009, 261-269.
9. P. Řehák, J. Vítovec, Regularly varying decreasing solutions of half-linear dynamic equations, in: Discrete Dynamics and Difference Equations, Proceedings of the Twelfth International Conference on Difference Equations and Applications (Lisbon, 2007), S. Elaydi, H. Oliveira, J. M. Ferreira, and J. F. Alves, editors, 375-382, World Scientific Publishing Co., London, 2010.

8. L. Erbe, A. Peterson, P. Řehák, Integral comparison theorems for second order linear dynamic equations, In *Difference equations, special functions and orthogonal polynomials*, Eds. S. Elaydi, J Cushing, R. Lasser, V. Papageorgiou (2008), 93, A. Ruffing, W. Van Assche, Munich, Germany, July 2005. London, World Scientific, 2007, 497-506.
7. M. Marini, S. Matucci, P. Řehák, Asymptotic boundary value problems for discrete systems, In *Difference equations, special functions and orthogonal polynomials*, Eds. S. Elaydi, J Cushing, R. Lasser, V. Papageorgiou, A. Ruffing, W. Van Assche, Munich, Germany, July 2005. London, World Scientific, 2007, 394-403.
6. S. Matucci, P. Řehák, Necessary and sufficient conditions for oscillation of coupled nonlinear discrete systems, In: *Difference Equations and Discrete Dynamical Systems*, Proc. of 9th ICDEA, Los Angeles, 2004, Singapore: World Scientific, 2005, 171-183.
5. M. Marini, S. Matucci, P. Řehák, Strongly decaying solutions of nonlinear forced discrete systems, In: B. Aulbach, S. Elaydi, and G. Ladas, editors, *Conference Proceedings of the Sixth International Conference on Difference Equations*, Augsburg, 2001, Taylor and Francis, FL, USA: CRC, Boca Raton, 2004, 493-500.
4. M. Marini, S. Matucci, P. Řehák, Zero convergent solutions for a class of p-laplacian systems, In: *Proceedings of Equadiff 10 (Prague, 2001) (2002)*, 279-287.
3. M. Marini, S. Matucci, P. Řehák, Nonoscillatory solutions for nonlinear discrete systems, In: *Proceedings of Equadiff 10 (Prague, 2001) (2002)*, 289-296.
2. P. Řehák, Half-linear discrete oscillation theory, In: *Proceedings of the 6th Colloquium on the Qualitative Theory of Differential Equations (Szeged, 1999)*, *Electron. J. Qual. Theory Differ. Equ.*, No. 5 (electronic), Szeged, 15 p., 2000.
1. P. Řehák, A Reid type roundabout theorem for second order half-linear difference equations and some of its applications, *Proceedings of 4th ICDEA (Poznań 1998)*, Gordon and Breach Science Publ., Amsterdam 2000, 327-335.

Editor of Proceedings

1. O. Došlý, P. Řehák (Eds), Colloquium on Differential and Difference Equations, CDDE 2006, Proceedings, Masaryk University Press, Brno 2007, 200 pp.

Other texts

5. P. Řehák, Nonlinear Differential Equations in the Framework of Regular Variation, Amathnet 2014, 207 pp.
<http://users.math.cas.cz/~rehak/ndefrv/>
4. Habilitation thesis, Masaryk University 2006.
3. PhD disseration, Masaryk University 2000 (also in Applied Mathematics E-Notes)
<http://www.math.nsysu.edu.tw/~amen/posters/preprints.html>.
2. Diploma thesis, Masaryk University 1997.
